

Denison Consulting Group Announces Move to Pennsylvania with U.S. Sen. Pat Toomey & U.S. Rep. Scott Perry

Smart Manufacturing and Engineering Firm Expanding in Carlisle, PA

HARRISBURG PA., Feb. 22, 2018 -- [Denison Consulting Group](#), a provider of technologies and engineering solutions specializing in delivering the Industrial Internet of Things (IIoT), expands its operations in the Keystone State. [Dianne Denison](#), founder and CEO of Denison Consulting Group says the Tax Cut and Jobs Act expedited her decision to open an office in Carlisle, PA. She made the announcement with U.S. Senator Patrick Toomey (R-PA) and U.S. Representative Scott Perry (PA-4) at the Pennsylvania Chamber of Business and Industry.

“We have absolutely, unambiguously lowered the cost of investing in America and investing in Pennsylvania,” says U.S. Sen. Toomey. “Today, we have a great success story of a sophisticated company that creates great opportunities for their employees and helps to make manufacturers more productive, more efficient and grow. A big part of it is driven by the tax reform.”

The boost in [business confidence](#) thanks to tax reform and recent agreements negotiated with global manufacturing customers have created the catalyst for the firm to move closer to their customer base, industry partners, and resources from world-class universities and vocational schools. Denison’s headquarters are now located within one day of over 60 percent of the U.S. population. “We are looking forward to deepening our relationship with local schools, hiring the best and brightest, and passing on the knowledge and skills our team brings forward,” says Denison.

Denison is a supportive member of the National Association of Manufacturers, and now, the Pennsylvania Manufacturing Association. “We look forward to continuing to be strong advocates for both core manufacturing and those innovative firms like Denison who focus on improving efficiency and cost competitiveness of our manufacturing base,” says David N. Taylor, CEO of Pennsylvania Manufacturing Association.

Clint Coldren, a native of Pennsylvania, graduate from Lehigh University and University of Pittsburgh, will be critical to the firm’s operations and expansion. A 39-year energy industry veteran with extensive executive level operational experience, Mr. Coldren recently joined the firm. “I look forward to leading operations and forging valuable relationships across the state and region,” says Coldren. “Together with our partners, we will deliver impactful solutions to premier manufacturing organizations across the region and the world.”
